#### Highlights:

- **Bella vista** (belvedere) - rinse your eyes with the "Tears of St. Lucia" - (healing water of St. Lucia and belvedere Skitina - the Kvarner bay on the palm of your hand)
- **Ravni** - magnificent beaches, a "paradise for surfers"

If you'd like to set off from the town of galleries, charming churches and baroque palaces to the infinity of spectacular views of the The Kvarner Bay and lightly rinse your eyes with the healing tears of St. Lucia, choose the **Bella Vista trail**. Take the road from **Labin old town** to **Kranjci**. When you come to the white road that will lead you through **Gora Glušići** to **Skitina**, follow this

route up to the **highest point of Labin area**, offering a **unique view of the The Kvarner Bay** and on a clear and sunny day you'll even see the outlines of Venice. You can still hear a story how the brave people of Skitina in 1661 won a great victory over the Turks.

Set only 1 km away from a renovated mountaineering house "Skitina" there is a **healing water spring**. The spring is also known by the name "Tears of St. Lucy" and this water allegedly cures amblyopia and sight problems. If you believe in Lucy's tears or not, one thing is certain - standing on this site you will see all the way to Italy! If you are staying here over the weekend, the house "Skitina" is open to all guests.

Leave Skitina down the road heading to the tourist resort Ravni where you can swim and relax on its beautiful beaches, or simply enjoy the stunts of surfers who like to gather here. Passing through Drenje via Crni, you'll come to the route that leads back to Labin old town where you have started from.

#### Highlights:

- Fragrances of the Mediterranean: Rabac on the seaside - "the pearl of the Kvarner bay" (gastronomy - delicious seafood close to the sea)
- Traces of the Venetian nobility, reformists and artists - the old city centre of Labin (baroque palaces in the old city, Matthias Flacius Illyricus memorial collection), art galleries and churches, **Labin Art Republic**
- Dubrova - "The White road" (park of sculptures, venue of the Mediterranean Sculptors' Symposium)
- People's Museum

When you had enough of the fashionable resort of Rabac, its beautiful beaches and fine restaurants, choose the **Teran trail**. Start from the **waterfront in Rabac** and ride on the main road heading to Labin and its old town situated on the top of a 320 m high hill. In its historical center you can admire buildings preserved from the time of Venetian government (beautiful **San Fior gate**, town loggia, palaces **Frankovići**, **Manzini**, **Scampicchio**, **Negri** and **Battiala-Lazzarini** (National Museum)), or the architecture of the late 19th century. Formerly known as the bastion of the Istrian mining, today it is the town of galleries and art studios. During summer Labin turns into a town of art, and on its streets most significant events of the contemporary art scene take place (**Labin Art Republic**).

From the **Fortica belvedere** you can enjoy a fantastic view of Rabac, the Isle of Cres and Istrian highest mountain - Učka. If you ride down from the old town and join the **pedestrian and bicycle path to Dubrova**, you'll reach a **Sculpture Park** in which for over thirty years during summer **Mediterranean Sculptors Symposium** is organized. There are more than 90 sculptures here, made by notable Croatian and international artists. One of the Symposium highlights is the so-called "White Road", a work of art par excellence, and each year a new section of this unique road is designed by another artist. The trail from **Nedešina** continues on the **wine road** to **Sveti Martin**. Passing through **Snasići**, **Beci** and **Vinež** you'll come to **Labin**, and then via **Ripenda** you'll reach **Gornji Rabac** from where you can easily get to Rabac **waterfront** from where you've started!

#### Highlights:

- The youngest town in Istria - **Raša 1936** (a mining town projected by Pulitzer, a mining collection in the church of St. Barbara)
- "Liburnia": a nature reserve of autochthon animals
- Magnificent landscape: a drained lake: **The field of epi**
- Impressive ruins: citadels **Kožljak** and **Kršan**

Have you heard of the youngest town in Istria, that is also a mining town? If not, choose the **Liburnia trail** and don't fail to ride towards the town of **Raša**. Like some kind of unique scenery, Raša will fascinate you with its regular rows of houses, drowned in the landscape of the Raša valley, which seem almost unreal. Built in 1936 according to the plans made by the architect **Gustavo Pulitzer**, Raša was a modern city designed for the needs of miners and their families with all necessary facilities: school, hospital, cinema and sports hall, and the church dedicated to the **miners' patron - St. Barbara**. Although there's no mining industry nowadays in the Labin area, the traces of mining history can be found in the church of St. Barbara, where there is a beautiful collection of mining artifacts. Riding down this route, you'll reach **Most Raša**. There is a **reserve of indigenous local domestic animals called "Liburnia"**. In addition to its **charming animals** and sociable donkeys, this reserve will cheer you up with a specially designed **ethno-collection of old tools**. Proceed along the gravel road along the river Raša enjoying the lowland landscape and you'll come to **Tupljak**, and from it the gravel road leads to **Zankovci**. The road then moves **towards Kostrićani, Zatkanj and epi**. Don't forget to visit the entrance to the tunnel through which the former **epi lake** was drained and thus converted into fertile farmland. The following points on this route are **Kožljak** and **Kršan** - typical examples of fortifications (castles) above **epi field**.

Be sure to explore them and walk up and down their romantic ruins. Riding through **Matijaši**, **Gorenji Kraji** and **Kraji Drage** via **Zuljani** and **Zupanići** to **Martinski** you'll end up in **Snasići**, and then via **Barbići** you'll ride a full circle of this trail and ride back on the fire route to the start - in **Reserve "Liburna"**.

#### Highlights:

- Traces of the Venetian nobility, reformists and artists - the **Labin old town** (baroque palaces of the old town, the memorial collection of Matthias Flacius Illyricus, art galleries and churches, **Labin Art Republic**)
- **St. Martin** - the Baron's yard
- **Sumber** - the castle over the Raša river valley
- **Potpićani** - the youngest place in Istria
- **Kršan** - the castle where the "Istrian demarcation act" was created
- **People's Museum**

We start from the old town of **Labin**, situated on a 320 m high hill. Continue via **Vinež** to **Golji** and **Sveti Martin**. **Sveti Martin** developed around the former aristocratic estate, which is best witnessed by the so-called "**Baron's yard**". Surrounded by cultivated pine forest (pineta) on one side, this yard consists of several buildings built in different periods, which close the inner courtyard with a small alley leading to a beautiful, one-story baroque palace **Lazzarini** with a square tower at the northern entrance. If you ride through **Martinski** and on, you'll reach **Sumber** whose name derives from a feudal family **Schönborg**.

Only a few scattered houses and a round tower of the former castle walls, is all that remained from the former 17th century feudal castle which emerged on the foundations of a prehistoric settlement constructed over the canyon of the river Raša. Riding through **Potpićani** - a place built next to the entrance pit of a now closed coal mine, you'll reach **Kršan** - a feudal estate, which was named after the karst origin of the area. Being the most characteristic of all the fortified cities of the Raša valley, **Kršan** has grown on the old foundations of early medieval burg, and was an independent town in the Pazin County.

**Kršan** has survived as one of the best preserved castles in Istria. Right here, among the high walls of **Kršan castle**, dominated by the square tower decorated with human figures and the nearby parish church of St. Anthony, a 17th century abbot, one of the most important medieval documents - the famous "**Istrian Demarcation**" was found in 1650. Written in the Gagliolitic script, followed by Latin and German, this text has revealed a special period of the Istrian medieval times, since territorial borders were clearly defined in it! Ride back to Labin via **Nedešina** and **industrial zone / OMV petrol station**.

#### Highlights:

- Traces of the Venetian nobility, reformists and artists - the **Labin old town** (baroque palaces of the old town, the memorial collection of Matthias Flacius Illyricus, art galleries and churches, the **Labin Art Republic**)
- **Skitina - Bella Vista** (view point) washed by the tears of St. Lucia - the healing water of St. Lucia and the Kvarner on your hand's palm

Welcome to the trail of Lucy with crystal-clear eyes that will carry you through the eastern Istrian shoreline, from the city of galleries, charming churches and baroque palaces to secluded places where miraculous saint's tears spring and from where unique views of Kvarner are revealed. We start from the old town of **Labin**, situated on a 320 m high hill. In its historical center on the top of the hill you can admire buildings preserved from the time of Venetian government or the architecture of the late 19th century. Follow the **G. Martiuzzi Street** and you will reach **Fortica belvedere** where you can enjoy a fantastic view of Rabac, the Isle of Cres and Istrian highest mountain - Učka.

Continue your ride via **Salakovci**, **Viškovići** and **Brovinja** to the village of **Skitina**, located in the highlands of the eastern coast of Istria. This place with a distinctive name (the name is of Vlach origin, and means people who are moving - wandering) originated in the 15th century from a group of immigrant Istro-Romanians who were fleeing from the Turks. The village reached its peak between the two world wars, with the population of 350 souls. Today it's almost completely abandoned, with barely four residents, and visited only by tourists and pilgrims attracted by the famous mineral spring in the rock on a nearby hill that doesn't dry up even in the utmost heat. Since ancient times it is called **tears of St. Lucy**.

This is supposedly the spring of healing water which cures eye diseases and amblyopia. One thing is certain: from Skitina you'll enjoy one of the most spectacular views on the **The Kvarner Bay**, and especially on a bright day standing here you can even see the outlines of Venice. Inspired by scenes that extend to infinity, ride slowly via **Skavranska**, **Drenje** and **Sv. Marina** back to **Labin** where your adventure on the trail of the Lucy with crystal-clear eyes has started.
